### **New turn lane work starting on U.S. 90 west of Baldwin**

**Baldwin** – The Florida Department of Transportation (FDOT) has started work to add a right turn lane on westbound U.S. 90 at Brandy Branch Road (County Road 121) west of Baldwin.

Hubbard Construction of Winter Park began clearing operations last week and installation of a silt fence required for erosion control as part of a box culvert extension.

The construction on U.S. 90 will require daytime lane closures after 8:30 a.m. Monday through Friday.

Hubbard Construction has 100 days to complete the \$558,858 project, which includes updating overhead flashing lights and signal poles and extending the guardrail.

“This is primarily a safety project,” said FDOT Project Manager James Barfield. “Adding the westbound turn lane will make that intersection function more safely and efficiently,” he said.
